- ▶ Adobe Photoshop
- ▶ Adobe Illustrator
- ▶ Adobe InDesign
- ▶ Adobe After Effects
- ▶ Microsoft Power BI
- ▶ Visual Studio Code
- ▶ HTML, CSS & Bootstrap
- ▶ Autodesk Maya
- ▶ Sketch Software
- ▶ Unity Software

Summary

I love to paint on canvas. I do user experience and user interaction design for IoT products, digital services, and enterprise solutions. In simple terms, I draw connections between human behavioral patterns and computing algorithms by mapping cognitive empathy and accessibility principles.

I have over 10+ years of pragmatic design experience across multiple domains for start-ups and leading corporations. I consistently strive to enhance my problem-solving abilities by learning new tools and diversified techniques.

Education

2007 - 2010	Bachelor of Fine Arts
	Govt. College of Art and Craft, Agartala • Tripura University Drawing and Painting
2004 - 2006	Bachelor of Science
	Maharaja Bir Bikram College, Agartala • Tripura University Physics, Math, Statistics

Employment

Lexmark International India Pvt. Ltd. | Kolkata

Usability Design Engineer

17/01/2022 – Present date

- Collaborate with product managers, developers, data analysts, testers, and other stakeholders to define and deliver user-centric solutions that meet business objectives and customer needs.
- Stay up to date with industry trends, design podcasts, reels, shorts, articles & journals as well as emerging technologies in UX/UI design, and motivate insightful knowledge with the team.
- Demonstrate attention to detail while reviewing designs from other team members. Give genuine feedback with kindness and embrace received feedback with an openness mindset.
- Lead external projects from fellow designers in a cohesively supportive and unified manner, and follow agile methodology while providing updates on progress to the product team.
- Utilize design thinking principles and industry best practices to produce engaging, captivating, and intuitive deliverables that blend with the Lexmark design system.

Wipro Technologies Limited | Bengaluru, Kolkata

User Experience Designer

17/03/2027 – 15/01/2022

- Managed a compact team of designers in the project to streamline the design-to-development process through collaborative efforts with product management and quality assurance teams.
- Before engaging with stakeholders, several preparatory steps are undertaken, which include competitive benchmarking, questions, and concerns anticipating by studying contextual inquiry.
- Develop journey mapping, execute user personas, create wireframes and clickable prototypes to convey data-driven solutions, and establish efficient design ideas and program areas.
- During the ideation phase, examine testable hypotheses, and heuristics evaluations, scrutinize predictive use cases, and then translate them into clear and logical solutions.
- Conduct ethnographic research through user interviews, value propositions, card sorting, tree testing, and data analysis to identify the pain areas and comprehend the business prioritization.

RxPrism Health Systems Pvt. Ltd. | Bengaluru

Graphic Interface Designer

11/03/2015 – 15/03/2017

- Analyze existing design reports to determine the requirements and create visuals that translate those demands and draft raw sketches to polish them into a presentable form.
- Work with copywriters to promptly resolve all editorial changes based on internal and external feedback and turn the original concept into a working prototype for further validation.
- Develop assets library components, such as illustrations, icons, and logos, use suitable colors and fonts, and template layouts, following Web Content Accessibility Guidelines.
- Revamp e-learning content and gamification modules to minimize misdirected queries and seamlessly increase learner engagement with content by boosting page traffic.
- Post design completion, perform essential checks to ensure an error-free package delivery and maintain brand consistency and brand identity throughout all projects.
