Other Software & AI Tools:

- Microsoft Copilot
- Adobe Firefly
- OpenAI DALL•E
- Visual Studio Code
- Adobe After Effects
- Basic HTML-5 and CSS-3

Inter-Personal Soft-skills:

- Active Listening
- Effective Communication
- Prompt Engineering

Profile Summary

I love to paint on canvas. Being a specialist in user experience design & interactions I excel in formulating solutions for enterprise services, consumer products, IoT devices and platform. I connect the dots between computing algorithms and human behavioral patterns using cognitive ergonomic principles.

I have over 10 years of pragmatic experience across multiple domains, working with both local startups and leading corporations. I resolve design challenges by converting data-driven insights and user feedback into actionable business acumen.

Work Experience

Lexmark International India Pvt. Ltd.

Usability Design Engineer • Jan 2022 - Present • Kolkata

- **Manage external project delivery:** Coordinating a mixed team of 2 designers, 2 testers and 4 developers to streamline the process from design to delivery.

- **Use accessibility & iterative approach:** Follow the web content accessibility guidelines (WCAG) and use iterative methods to build intuitive designs as per design system.

- **Enhance usability & uncover findings:** By observing real the users while navigate with products and identify which features are most important and impactful.

- **Stay updated and share knowledge:** Keep up with latest UI and UX trends by following podcasts, articles, and journals and share knowledge to inspire new ideas.

Wipro Limited

User Experience Designer • Mar 2017 - Jan 2022 • Bengaluru, Kolkata

- **UX optimization & timely handover:** Using agile methodology to create user persona, journey map, wireframe & prototype, ensuring top quality and going from 8 sprints to 4.

- **Conduct user experience research:** Perform research methods like tree testing, card sorting, user interviews to understand the priorities and anticipate potential inquiries.

- **Prepare before client interaction:** Apply key preparatory activities such as competitive benchmarking, predictive analysis, exception hypotheses and contextual studies.

- **Collaborate and provide solutions:** Work with product managers, developers and copy writers to create and translate user friendly solutions that meet business goals.

- **Evaluate designs with attention:** Give honest and helpful suggestions while reviewing co-designer's work and remain open-minded when receiving feedback.

RxPrism Health Systems Pvt. Ltd.

Graphic UI and UX Designer • Mar 2015 - Mar 2017 • Bengaluru

- **Improve e-learning engagement:** Redesign e-learning content & game-like modules to reduce confusion and increase user engagement by approximately 10-15%.

- **Ensure quality and consistency:** Post design phase, carefully examine the package to ensure an error-free delivery, maintain consistent representation of the brand's identity.

- **Develop marketing components:** Responsible for crafting illustrations, typographical fonts, logo and icons, layout templates across different marketing platforms.
